

Biomea Fusion Announces Pricing of Upsized Public Offering of Common Stock

March 30, 2023

REDWOOD CITY, Calif., March 29, 2023 (GLOBE NEWSWIRE) -- Biomea Fusion, Inc. ("Biomea") (Nasdaq: BMEA), a clinical-stage biopharmaceutical company dedicated to discovering and developing novel covalent small molecules to treat and improve the lives of patients with genetically defined cancers and metabolic diseases, today announced the pricing of its previously announced underwritten public offering of 5,000,000 shares of its common stock at a price to the public of \$30.00 per share. The gross proceeds to Biomea from the offering, before deducting underwriting discounts and commissions and offering expenses, are expected to be \$150.0 million. In addition, Biomea has granted the underwriters a 30-day option to purchase up to an additional 750,000 shares of common stock at the public offering price less underwriting discounts and commissions. The offering is expected to close on April 3, 2023, subject to the satisfaction of customary closing conditions.

J.P. Morgan and Citigroup are acting as joint book-running managers for the offering. Oppenheimer & Co. and Barclays are also acting as joint book-running managers for the offering.

The securities are being offered by Biomea pursuant to an effective shelf registration statement on Form S-3 that was previously filed with the U.S. Securities and Exchange Commission (SEC). About Biomea Fusion

Biomea Fusion is a clinical stage biopharmaceutical company focused on the discovery and development of covalent small molecules to treat patients with genetically defined cancers and metabolic diseases. A covalent small molecule is a synthetic compound that forms a permanent bond to its target and offers a number of potential advantages over conventional non-covalent drugs, including greater target selectivity, lower drug exposure, and the ability to drive a deeper, more durable response. The company is utilizing its proprietary FUSION™ System to discover, design and develop a pipeline of next-generation covalent-binding small molecule medicines designed to target key drivers of cancer and metabolic diseases, including diabetes. Biomea Fusion is a leader in advancing next-generation covalent small molecule medicines. Biomea aims to cure.
