

Biomea Fusion Announces Closing of Upsized Public Offering and Full Exercise of the Underwriters' Option to Purchase Additional Shares

April 13, 2023

REDWOOD CITY, Calif., April 13, 2023 (GLOBE NEWSWIRE) -- Biomea Fusion, Inc. ("Biomea" or the "Company") (Nasdaq: BMEA), a clinical-stage biopharmaceutical company dedicated to discovering and developing novel covalent small molecules to treat and improve the lives of patients with genetically defined cancers and metabolic diseases, today announced the closing of its previously announced upsized underwritten public offering of 5,750,000 shares of its common stock, which includes the full exercise of the underwriters' option to purchase 750,000 additional shares, at a price to the public of \$30.00 per share. The aggregate gross proceeds from the offering were \$172.5 million, before deducting the underwriting discounts and commissions and estimated offering expenses payable by Biomea. All shares of common stock were offered by Biomea.

J.P. Morgan and Citigroup acted as joint book-running managers for the offering. Oppenheimer & Co. and Barclays also acted as joint book-running managers for the offering.

Biomea intends to use the net proceeds from the offering, together with its existing cash, cash equivalents, restricted cash and investments to fund: (i) the continued clinical development of BMF-219, an orally bioavailable, potent and selective covalent inhibitor of menin, for the treatment of patients with liquid and solid tumors, as well as patients with type 2 diabetes; (ii) its exploration of the potential clinical utility of BMF-219 in other diabetic patient populations, including type 1 diabetes; (iii) IND-enabling studies and the clinical development of BMF-500, a covalent inhibitor of FLT3; (iv) its ongoing efforts to develop product candidates from our FUSION System discovery platform; and (v) other general corporate purposes.

The securities were offered by Biomea pursuant to a registration statement on Form S-3 (File No. 333-267884) previously filed and declared effective by the Securities and Exchange Commission (the "SEC"). A final prospectus supplement and accompanying prospectus relating to the offering were filed with the SEC and are available for free on the SEC's website at <http://www.sec.gov>. About Biomea Fusion

Biomea Fusion is a clinical stage biopharmaceutical company focused on the discovery and development of covalent small molecules to treat patients with genetically defined cancers and metabolic diseases. A covalent small molecule is a synthetic compound that forms a permanent bond to its target and offers a number of potential advantages over conventional non-covalent drugs, including greater target selectivity, lower drug exposure, and the ability to drive a deeper, more durable response. The company is utilizing its proprietary FUSION™ System to discover, design and develop a pipeline of next-generation covalent-binding small molecule medicines designed to target key drivers of cancer and metabolic diseases, including diabetes. Biomea Fusion is a leader in advancing next-generation covalent small molecule medicines. Biomea aims to cure.
