### **About Biomea Fusion**

Biomea Fusion is a clinical-stage biopharmaceutical company advancing oral small molecule therapies for diabetes and obesity; icovamenib, a selective menin inhibitor for diabetes and BMF-650, a next-generation oral GLP-1 receptor agonist for obesity. These programs target cardiometabolic disorders, a global health challenge affecting nearly half of Americans and one-fifth of the world's population. Biomea's mission is to deliver transformative treatments that restore health for patients living with diabetes, obesity, and related conditions. We aim to cure.
